"To become truly immortal, a work of art must escape all human limits: logic and common sense will only interfere. But once these barriers are broken, it will enter the realms of childhood visions and dreams." –Georgio de Chirico

Art in the Elementary School Level

The New Media of Art

Integrating Art with technology for the elementary school level can help the students to be

productive in all media of art. It is important to give the kids a well rounded art program so they can find their niche in the art world. The job possibilities are endless: graphic design, advertising, animation, video editing and manipulation, application design and development, web design , and video gaming.
